Re: Certificate of Correction

Consideration has been given your request for a certificate of correction, for the above-identified patent under the provisions of Rule 1.322 and 1.323.

Respecting the alleged error(s) in your request concerning item (63) Continuation data, the oath/declaration of record includes these patents as continuation in parts. It is improper to remove this information from the instant case via certificate of correction as it creates new issues/scope, and was relied upon during the examination. See MPEP 211.11. There being no fault on the part of the Patent and Trademark Office, it has no authority to issue a certificate of correction under the provision of 1.322 or 1.323.

In view of the foregoing, your request for certificate of correction in this matter is hereby denied.

Future correspondence concerning this matter should be filed and directed to Decisions & Certificates of Correction Branch.
